

Motorised Safes

The Yale High Protection Motorised Safes are built to keep your most important belongings secure and safe with laser-cut steel doors and anti-saw locking bolts that guard against tools.

You can gain quick access through a handy PIN keypad. For added security, after three unsuccessful attempts the safe locks down automatically for one minute.

The internal light gives you clear visibility of your valuables and the internal hooks makes it more convenient for you to keep your things organised and clearly displayed.

Suitable for:

Jewellery

Watches

Important Documents

Passports

Smart Devices

Keys

Laptop

Camera

- PIN code or mastercode access
- Clear LCD keypad display
- Lock down for one minute after three incorrect PIN attempts
- Laser-cut door to protect the door from being forced open with tools
- Motorised locking mechanism with two anti-saw locking bolts (20mm)
- High security mechanical over-ride lock that includes 1 double bitted key
- Internal light, hooks and shelf (no shelf in compact version)
- External 9V battery option to gain emergency access (battery not included)

Trusted every day
