

STATUS Paste Professional

STATUS Paste Professional is a high viscous cold water soluble modified starch.

Product characteristics

Kind of product:	modified starch derivative
Appearance:	off-white flakes
Moisture:	max. 8 %
pH value (solution 3 %):	approx. 11
Solubility:	cold water soluble
Dissolving ratio:	1 : 32 (product to water)
Solution:	short and smooth paste
Brookfield viscosity:	approx. 11.000 mPa.s (measured with ES method V3015)
Bulk density:	approx. 300 kg/m ³
Preservation:	preserved

Application

STATUS Paste Professional is a special adhesive or additive for

- poster gluing
- wallpaper hanging
- mortar mixes

Shelf life

Shelf life is 18 months from date of manufacturing if stored cool and dry in closed packaging.

All information and data in this brochure are in accordance with the best practise experiences and laboratory examinations of e-Delux GmbH. The indications are based on the current state of development, technology and research and should be taken as information on the products of e-Delux GmbH. But must not be understood as promise of characteristics. e-Delux GmbH cannot assume liability for the product information and products, as the conditions under which the stocking, treatment and processing occur are out of the control of e-Delux GmbH. Liability claims against e-Delux GmbH which refer to material or immaterial damages caused by the use or disuse of the offered products and product information of e-Delux GmbH are basically exempted, unless demonstrably intended or grossly negligent fault exists which directly caused the damage. In particular e-Delux GmbH assumes no liability that the offered products or product information are economically utilizable, technically executable or useful or that the offered products and product information do not infringe the rights of third persons. Our technologists and expert advisers of the respective section who are always to your disposition for details are glad to give you further information and advices.
